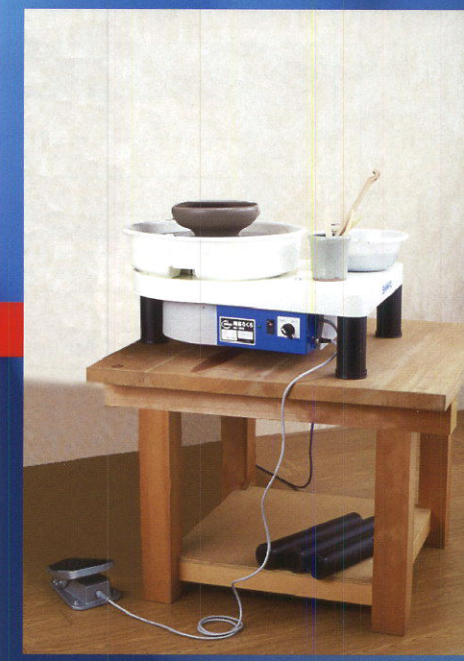
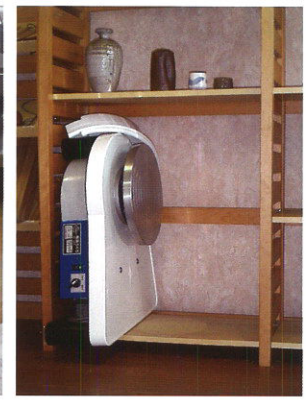
Superior New Design

RK-3E

You can adjust the wheel height to a comfortable position.



Adjustable height with table-top position.



The design of the brushless DC motor provides high torque at all speeds.

Combined with a "high-tech" positive feedback controller the motor will maintain your present speed under all load conditions, even under downward pressure.

"QUIET" (30 Decibels)

Extraordinary quietness of both the RK-3D and RK-3E models allows you to concentrate on your work and wheel not disturb others when used in your home.

120 Decibels near the engine of an air plane

80 Decibels inside a subway

30 Decibels quiet town at night
